
A-2's actor (trained to approach green in the original layout) after red and green are swapped
(a) Original layout (as in training)
(b) Red and green swapped
(c) A-2 goes to where green was, not to green
Red
Cyan
Green
Blue
start (40 sample episodes)
end, t=100 (all 3000)
end within 5 of green: 100%
Green
Cyan
Red
Blue
end within 5 of green: 0%
end within 5 of green's old place: 100%
distance of A-2 (mean ± sd, 3000 episodes)
time step
swapped: to green (-9, 9)
swapped: to green's old place (-9, -9), now red
original: to green (-9, -9)
